

FRUSTRATED WITH TYPE 2 DIABETES?

Are you taking metformin (glucophage) exercising and eating healthy to control your diabetes?

If you are doing everything right to control your diabetes... and your blood sugar level is still too high, we have an option for you.

Local physicians are conducting a research study of a new medication for type 2 diabetes in patients between the ages of 18 and 78 that have been taking *only* metformin (glucophage) for at least 3 months. If you qualify, you will receive all study related care and study medication at no cost. For Information, please call Millennium Clinical Trials @ 703-527 8100 or visit us on the web at www.mctrials.net/contact_us.htm.
